WSB 18 decided to perform a process evaluation of the production of the Quality Status Report QSR 2016. Mr. Pieter de Lezenne Coulander (former director within the Netherlands Food and Consumer Product Safety Authority, part of the ministry of Economic Affairs) was nominated to perform this evaluation independently. His nomination was accepted and supported by the Task Group Management and Monitoring (TGMM). The concept report was presented and discussed in the TG-MM 19 meeting in Bremen end of October 2017. Attached is the final QSR 2016 evaluation document (separate pdf file).

**Proposal:** The meeting is invited to consider the document.
